Sturdi-Wall® anchor brackets are designed to connect post-frame structures to traditional concrete foundations such as monolithic slabs, formed walls, and existing concrete pads.

STURDI-WALL
ANCHOR BRACKETS

The Perma-Column® system

Three times stronger than standard concrete, Perma-Column® is the patented combination of precast concrete and 60,000 psi rebar welded to a steel bracket. Perma-Column® is sized to fit a full range of posts or laminated columns and easily integrates into standard post-frame construction methods.

OPTIONAL UPLIFT ANCHORS*

OPTIONAL COLUMN EXTENDER*

*Uplift kits and hardware sold separately.

CERTIFIED EXCELLENCE

ICC-ES certified

The International Code Council has evaluated and certified Perma-Column® precast concrete posts are compliant with the following:

- 2018 and 2015 International Building Code® (IBC)
- 2018 and 2015 International Residential Code® (IRC)
- 2017 Florida Building Code—Building
- 2017 Florida Building Code—Residential
- 2016 California Building Code (CBC)
- 2016 California Residential Code (CRC)

Builder advantages

- Easier permitting and approvals
- Assured code-compliance

Customer benefits

- Trust in Perma-Column® quality
- Confidence in their lasting investment

See ICC-ES Evaluation Report No. ESR-4238 at icc-es.org/report-listing/esr-4238/

BUILD BETTER

Perma-Column® outperforms treated wood ... guaranteed. Perma-Column® is the environmentally friendly solution that will outlast a treated wood foundation every time. Only Perma-Column® precast concrete columns provide a foundation engineered to last for generations to come.

BUILD STRONGER

Perma-Column® is 3x stronger than concrete

Perma-Column® columns are precast concrete, reinforced with 60,000 psi rebar welded to a 1/4" steel bracket. Perma-Column® is the unmatched post-frame foundation solution for homes and municipal, commercial, and agricultural buildings.

BUILD TO LAST

Perma-Column® protects the value of your building

Post-frame construction materials have come a long way. Perma-Column® provides the lasting durability of a permanent foundation and is backed by a lifetime warranty.

BUILD ON A PERMANENT FOUNDATION

DRILL SET

Sturdi-Wall®

The ICC-ES certified Sturdi-Wall® system enables post-frame construction on traditional concrete foundations. Sturdi-Wall® anchor brackets are 100% American-made 1/4" steel, robotically welded, and finished with a tough powder coat.

Sturdi-Wall® is installed with a masonry drill bit and concrete anchors.
